Detailed methodology

INFORMATION SHEET N°	1	TARGET	1.2/1.4

OUTPUT			
Indicator	Number of unskilled jobs created		
Description	Absolute number of unskilled jobs created. Estimated based on data from the Statistical Institute of Madrid on employment using the proportion of affiliations in jobs by contribution groups where the workforce with a low level of education is concentrated (either by empirical sample or by minimum requirements).		
Type	Statistics	**Source**	UN

Data source			
Madrid Nuevo Norte	Job creation by functional breakdown	**BIM**	NO
	• Socio-economic Impact Report. Madrid Nuevo Norte: Un impulso clave para la economía (Universidad Autónoma de Madrid, I.R. Klein Instituto Universitario de Predicción Económica)		
Comparison	Jobs by contribution group in the Region of Madrid		
	• General Social Security Treasury and General Directorate for the Economy, Statistics and Technological Innovation of the Region of Madrid (https://www.comunidad.madrid/governmento/estadisticas/portal-estadistico-comunidad-madrid)		

Calculation method

Estimation based on data provided by the General Social Security Treasury of the affiliates working in the city of Madrid, broken down by contribution groups, identifying the groups that are most vulnerable and with the lowest requirements in regard to the level of training (Junior-level positions, Administrative Assistants, First/second class tradesmen, Third-class tradesmen, Specialists, Labourers and Workers under 18 years of age). The estimate is extrapolated to the case of Madrid Nuevo Norte using the data from the socio-economic study and the available functional breakdown of the jobs created during the project and the activity phase. It will be possible to track the indicator more accurately once the MNN project starts, both during the construction phase and during the activity phase, by directly analysing actual employment statistics.

OUTCOME		
Indicator	**Unit**	**Source**
Proportion of persons living in households with low work intensity	%	EU Statistics on Income and Living Conditions (EU-SILC). Eurostat (https://ec.europa.eu/eurostat/web/income-and-livingconditions/data/database)
At-risk-of-poverty rate	%	Survey of living conditions. INE (https://www.ine.es/jaxiT3/Tabla.htm?t=10011&L=0)
Proportion of persons living in households with severe material deficiencies	%	EU Statistics on Income and Living Conditions (EU-SILC). Eurostat (https://ec.europa.eu/eurostat/web/income-and-livingconditions/ data/database)
